## PROJECTS

---

### Project Name- [Portfolio](#)

**Technology:** React.js, Tailwind CSS, React Libraries

- Designed and implemented a dynamic React.js portfolio featuring various projects. Added live links and GitHub repositories.
- Developed a user-friendly portfolio site with project details to engage potential employers.
- Established a dedicated contact section to facilitate easy communication and collaborations.

### Project Name- [CryptoBazar](#)

**Technology:** React.js, Tailwind CSS, CoinGecko APIs

- CryptoBazar presents a diverse selection of 10 cryptocurrencies on its homepage, offering real-time data and trends to users.
- Providing in-depth insights, CryptoBazar includes dedicated routes to individual coin pages, allowing users to study comprehensive market data for each cryptocurrency.
- Enhancing user experience, CryptoBazar offers both light and dark theme modes, ensuring accessibility and personalized preferences for every user.

### Project Name- [College website](#)

**Technology:** React.js, Tailwind CSS, Rapid APIs

- Developed a responsive college website using React.js, Tailwind CSS, and Fetch API for interactive graphs, a filterable table, and dynamic cards.
- Ensured optimal user experience with a focus on responsive design through Tailwind CSS Media Queries.
